FAX: 353-1-2870056

The corporate sector can incur serious losses, not through the obvious result of a stock market crash or external theft, but through the indiscretion of those we should be able to trust most, our staff.

**AVS** will investigate either covertly or openly to establish the extent of the problem and identify those responsible.

Evidence will be gathered to allow the client to pursue legal action if required.

## **AVS can help you with**

- Employee infidelity - passing of information
- Abuse of sickness schemes.
- Insurance fraud
- IT security
- Due diligence
- Protection of intellectual property
- Screening of new job applicants

## **Techniques used to deliver a successful outcome to our investigations include**

- Covert surveillance
- Covert photography
- Undercover assignments
- Evidence handling

Utilising the utmost discretion and tact, along with the most sophisticated surveillance equipment available, **AVS** can provide independent evidence, including covert photographs and video footage.

We subscribe to many national data base information systems and are able to provide clients with the most complete and up to date information available

Our entire staff is committed to the delivery of services in a confidential, Efficient and economical manner.
